Seventy of these poor fellows recently arrived from Baltimore, all of whom had been induced through specious promises to ship for Charleston. They now lie blenchieg in the sun upon Morris Island, almost naked, with no brids and terr little to eat. A true Union man, who is a German, obtained a pass, through the Captain of a German Company, to visit the Island, and went (especially at my request,) to communicate with these unfortunate men. "He is the very embodinent of Yankes character. He looks mean in every fibre and hineament of his wretched body. Valgarity, conceit, cowardice, and rapacity are stamped unmistakably upon his frontispiece. He looks as if he had been brought up on Yankes Doodle—s tune which could only biccome a favorite moving a mean and sneaking people, and which would inevitably make thy race so who were not so before. In looking at Morril, the only matter of surprise to any believer in physiconomy is, that he has not been imprisoned for stealing sixparces or selling wooden natungs, instead of being the suchor of the more stroit and gigantic robbery of the famous Morrill tariff bill."

During the late executive session of the Senaia, about 400 nominations were confirmed, nearly 50 of which were sent in by the President vasterday.

The Post Office Department, under the provisions of the recently enacted law, has rerisons of the recently enacted law, has re-stored the mail service between Georgetown and Lexington, Missouri. The service is to six times a week. General Wm. Hickey was elected Assistant Secretary of the Senate. Ashberry Dickens retains his position.

The Government has sent to Florida for witnesses in the Armstrong court martial.

Kansas Legislature.

Leavenworth, March 39.—The Lower Honse of the Kansas Legislature organized on the 28th, by the election of Mr. Degraf, Rep., Speaker, He is understood to favor Parrott and Lane for Senators. Gov. Robinson's Message is mainly devoted to local staffar. He recommends a suitable acknowledgment by the Legis ature for the generous relief given to the needy citizens of Kansas. He recommends that the credit of the State be used for relief of her citizens, if necessary. He says that seed has been furnished in abundance for planting, and hopes a general call for relief will soon cense. Kansas Legislature.

Pinances in Pittsburgh.

Pirtsburgh, March 20. —The merchanis and business men of this city are very generally standing up firmly against receiving depresiated currency except at breker's rakes to-day. Missoari and Virginis money is received at four per cent, discount. The farmers will not receive it at all, and this kind of currency is worthless to purchase produce from first hands. The indications are that Pittsburgh will hereafter be a par point. Many of the manufacturers pay their hands exclusively in par money.

Very Important if True. Spain is also preparing to send a formidal force to the Gulf of Mexico, though not wo ing in concert with France and England.

From Virginia.

RICHMOND, March 26.—The rumors of the transfer of gins from Bellom Arsenal, near Richmond, to Fortress Monroe, were the basis of resolutions in the House to-day, protesting against the movement of arms, or an increase of armament by the Government within the limits of the State. Substitutes to the resolution were offered, and a long debate ensued but no action was arrived at.

ry, I may say, as one who has laught type-setter himself, that it : as the locomotive seems to the

e cance—an impossible desideratum brought inculously to pass.

"Perhaps the most curiously ingenious part the inventions in that which gives the comision schance to senses his head or indulge a revery, speak to his friend or light his ar, mend the grammar or criticise the opy—obviating, that is to say, the necessity rigidity keeping up with the unvarying sam-propulsion of the machine. This is me by a register-wheel, which makes signals the letters before they are taken, and ich will allow as many as sixty to accidate before they are disposed of, with no drance to the action of the machiner.

The affair Mircs has taken on an serious a sura, that that gentleman has again been placed as serior. When first arrested he made such threats against the Government, that he was at once secluded: subsequently he was allowed to receive with from his wife and daughter, Princess de Polignae, and still later on was permitted to receive his lawyer. But now he is again secluded, and the reports about town are quite as numerous and alarming as when the arrest was made. It is said, among other things, that high public functionaries are implicated, and that resignations and arrest may be looked for that will startle the town. The debates in the Senate on the paragraph of the Address of Interior Affairs, and in which reference was made by M. Dupin and others to this affair, was no doubt the starting point of the new alarms on the subject. The impatience of the public is such that M. de Gerniny, after the Government, has been obliged to give explanations through the press. The examination of M. Mirch' affair must in fact be a complicated and tedious task.—Puris Cov. N. Y. Times.
